A02B-0047-C920

FANUC Corporation · FANUC System 3/5/6 CNC

FEATURES

Axial fan unit for cooling FANUC servo drives and CNC control electronics.

Hardware

Function:
axial cooling fan motor unit (multi-source consensus; supplier-reported)

Communication

Electrical

Supply voltage:
Not published by manufacturer (early CRT/MDI unit; no published spec located for this order code)

Environmental

Operating temperature:
Not published by manufacturer (System 3/5/6 axial fan; no published spec located for this order code)

Storage temperature:
Not published by manufacturer (System 3/5/6 axial fan; no published spec located for this order code)

Relative humidity:
75%RH or less, no condensation (family-level reference; cross-generation manual not confirmed for this specific order code (per GFZ-63523EN/03)

Physical

www.autronexa.com

Dimensions (H×W×D):
Not published as numerical table (axial fan unit)

Weight:
~2.15 kg (supplier-reported single source; DO Supply, 4.75 lbs)

Lifecycle

Legacy (spare part for early FANUC CNC generations; listed in aftermarket channels) (Last verified:
2026-09)
