Flexem Flexem □□ Series Service Manual

F5-BSC01

1. Description

Flexem F5-BSC01 Expansion Board Control PLC

3. Product Information

Flexem F5-BSC01 Expansion Board Control PLC

Description Serial ports expansion board

Channel 1

Isolation Non-isolation

Ports RS485/RS232

Protocol RS485/232,baud rate:4800-115200bps

Power Supply 5VDC-15%/+20%,3.2W max.The main unit is provided internally without extemal input

Wiring Strucutre Non-removable terminal block

Working Temperature -10~60ºC

Storage Temperature -20~70ºC

Environment Humidity 10-90%RH (Non-condensing)

Installation CPU Front expansion board slot

Dimension 38mmx40mmx18mm
